PROFESSIONAL SUMMARY

Frontend Developer with 2.8+ years of experience building responsive and scalable web applications using React.js, JavaScript (ES6+), Redux, HTML5, CSS3, and Tailwind CSS. Experienced in REST API integration, reusable component development, performance optimization, and Agile development. Built enterprise web applications and full-stack personal projects using React.js, Node.js, Express.js, MongoDB, and JWT authentication.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Axios, Tailwind CSS
- **Backend:** Node.js, ExpressJS
- **Authentication:** JWT, Role-Based Access Control
- **Database:** MongoDB
- **Tools:** Git, GitHub, VS Code, JIRA, Postman
- **Concepts:** REST APIs, Responsive Design, Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

Frontend Developer – CodersBrain Technologies

(Jan 2023 – Aug 2025)

- Developed and maintained scalable web applications using **React.js and Redux**
- Worked on **SAP CTOOL project** to manage customer and operator data
- Integrated REST APIs with backend services (Spring Boot)
- Improved application performance and resolved critical bugs
- Collaborated with cross-functional teams in Agile environment using JIRA

INTERNSHIP EXPERIENCE

Frontend Developer Intern – Asvix (2 Months)

- Contributed to **MediBot**, an AI-powered healthcare chatbot
- Built responsive UI components using React.js
- Integrated APIs for real-time data handling
- Enhanced user experience with interactive design

PROJECTS

LocalMart | Full-Stack E-commerce Marketplace

- Developed a responsive multi-vendor marketplace using React.js, Tailwind CSS, Node.js, and MongoDB
- Implemented shop-specific products, inventory, cart, orders, and role-based access
- Built JWT-based authentication and integrated Cloudinary for product image management
- Created reusable responsive UI components and optimized the shopping and checkout experience
- Live Demo: <https://localmart-pi.vercel.app/>

FixMate | Full-Stack Local Service Marketplace

- Developed a service-booking marketplace using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS
- Implemented customer and provider workflows for service discovery, booking requests, and provider dashboards
- Integrated REST APIs and Socket.io for booking updates and real-time notifications
- Implemented role-based access and provider management features for a complete service marketplace experience
- Live Demo: <https://client-ntmjsgiw0-gauri-pawar1.vercel.app/>

Personal Portfolio | React.js

- Developed a responsive developer portfolio using React.js and Tailwind CSS.
- Implemented reusable components, responsive layouts, animations, and project showcase sections.
- Integrated project demos, GitHub, LinkedIn, and resume download functionality.
